POMPON

COLLARETTE

Hi Friends -

Hope you've had a wonderful gardening year. We had a hectic summer trying to keep things wet enough (this is Seattle too), we had an exceptionally warm and beautiful summer. Some of the dahlias loved it, but others waited till the weather cooled off before they behaved themselves. Their tubers liked the growing weather anyway, looks like an extra big crop.

We're still changing descriptions to fit the American Dahlia Society Classification book where we can. Some like "Gerrie Hoek", which we've always listed as miniature, moved up to the bigger varieties. Some that used to be in big varieties are now in miniatures. We deleted the "AA" listing also. Kept getting letters saying our "A" varieties grew larger than they do here.

Had fun making up this catalogue. Tried to do it ourselves this time, any mistakes you can just blame on my typewriter (and my proofreading).

We think we are buying a farm, so far it's still in the process, but wanted to tell you about it. We sold our place, that's one sure way to make sure you're going to get out and look for the farm you want. We will be here all through next spring so we can fill our orders, plant our stock in the new place, then move this madhouse collection of all sorts of things to the new place. How we'll ever get all this moved I don't know, but will manage somehow. The place we are trying to buy is at Kingston Washington. That's directly across the Sound from Edmonds Washington. Just a 25 minute ferry ride, but like going into another world. Nice town, pleasant people, lots of elbow room and no traffic zooming by our door. Will have 20 acres to work with, partly in woods, but enough has been under cultivation to take care of dahlias and other

things. There's a creek, a small pond for irrigation, several assorted barns and sheds. The house is a long way from new, but it's pleasant. Now all we have to do is make sure the deal goes through and stagger through our winter and spring work. Now that we've made our minds up to finally get a farm it's going to be hard to wait till it's all over.

Will have our new address on the next catalogue, so be sure you look for it.

Going to try and put on a few shows for our local customers next year if we can find the time. It should be a lot easier to care for these if we can spread them out and use the tractor for cultivating and spraying. Now maybe can find the time and the room to experiment with some of the things we've always wanted to try out.

Good luck, hope this new list helps you out with some of the varieties you've been looking for.

Miller Dahlia Farm-----The Murrays  
Lynn--Maxine--Barbara and Lela.

## DESCRIPTIONS

Following the name of each larger variety here, the classification is first given. Next the key letter (A-B) to give the general size of bloom. Last the general height of bush, T-Tall, M-Medium, S-Short. Key letter following classification "A" or large, over 8 inches in diameter. "B" or medium, 4 to 8 inches in diameter. "M" or miniature, under 4 inches. Special culture will increase the size of blooms, but these are average sizes.

### BI-COLOR AND VARIEGATED VARIETIES

Almost all bi-color and variegated varieties have tendency to throw sports reverting to solid color, usually darkest color. We label those that are solid in our rows, but can't guarantee that there won't be some sports among those that are okay in our rows the previous season.

### CUTFLOWERS

Try this for longer-lasting bouquets. Boil the tips of stems for approximately 30 seconds, then place in water of bath temperature. Allow water to cool before removing flowers and arranging in usual cool water. Wrap paper around blooms while in warm water to protect blooms.

### CLASSIFICATIONS

- FD- Formal Decorative. Fully double flowers, uniform broad petals either pointed or rounded at tips.
- ID. Informal Decorative. Fully double flowers with margins of floral rays slightly or not at all revolute. Generally long, twisted or pointed, irregular in arrangement.
- SC - Semi-cactus. As name suggests, petals revolute for less than half their length.
- STC - Straight cactus. Petals straight and revolute for half or more of their length.
- IC - Incurved Cactus. Fully double flowers with margins of petals revolute for half or more of their length, and tips curving toward center.
- Ball - Fully double. Ball-shaped.

- SINGLE - One row of petals with a definite disc in center.
- COL COLLARETTE. Like a single, but has a tiny row of petaloids around center; like a collar.
- ANEMONE - Open-centered flower, with the tubular disc florets elongated, forming a pincushion effect. One row of petals around cushion.
- MIGNON - Single dahlias, the plants of which approximate eighteen inches in height.
- PEONY - Open-centered flowers with two to five rows of ray florets with or without the addition of smaller floral rays around disc.
- DWARF - Term that applies to plant height without regard to bloom.
- ORCHID - Flowers like single dahlias excepting that the rays are more or less tubular by the involution of the margin.

#### SUBSTITUTIONS

Stock of some varieties may not be equal to the demand, and to save time and correspondence we suggest the customer allow the privilege of substituting similar varieties when necessary. Extra value is always given in such cases.

#### SUGGESTION

Every year we have customers who apparently would rather trust our judgement than their own. They send an order, enclosing the amount they want to spend and give us a general idea of the types they would like. It's fun to fill these, and we're proud of our choice. Always give our own favorites, in generous quantity. It's just a suggestion in case you can't make up your mind.

## LARGE DECORATIVE AND CACTUS VARIETIES

These all have good stems, some longer than others, but all strong enough to hold flowers well. The STC., IC., SC., are all good cutflowers. The smaller sizes in FD., and ID., cut well also. Extra large varieties in FD., and ID., are usually grown for show and garden displays only.

- ADVANCEMENT - STC B T - Blend of rose-pink shading creamy white. Split tips, curls like waterlily at night. . . . . 1.00
- ALDERMAN - IC A M - Rich purple to dark ruby red, almost black. Long twisted petals incurve widely. . . . . 1.00
- ALLWAYS - STC A M - Lovely cactus of coral-pink. Good stems. . . . . 1.00
- AMB. VON KLEFFENS - FD B M - Very clear, bright orange. Wonderful stems. . . . . .50
- AMERICAN JUDGE - SC A M - Golden yellow shading to orange on outer petals. Curves inward, good stems. . . . . .75
- ANDRIES WONDER - ID A M - Resembles large incurved chrysanthemum. Tips of petals are hooked upward. Rich salmon-pink mixed with golden shadings. Pearl-shell edge. . . . . 1.25
- ANITA - SC A M - Striking blood-red. . . . . .75
- ARCADIA - FD B M - Bronzy-red shading to yellow at center. Waterlily-type, curves in and closes at night. . . . . 1.00
- ARSENAL - STC B M - Showy lemon yellow, good stems, cuts well. . . . . .75
- ARTHUR GODFREY - FD A M - Oriental-red with orange shadings. Listed as flame by classification list. . . . . 1.00
- AUMONIER CHANDELON - STC B M - Lovely flower, very waxen look. Lemon yellow in center shading out to pale rose. . . . . .60

|   |      |
|---|------|
| AUSTRIA - ID A T - Flaming orange-<br>scarlet with large white tips. Good stems.  | 1.00 |

THIS IS ONLY A PARTIAL LISTING OF OUR TOTAL PLANTING. INQUIRIES ABOUT UNLISTED STOCK WILL BE ACKNOWLEDGED.

#### GUARANTEE

Each root sent out is carefully inspected for soundness and eyes. They are guaranteed to be free of disease and to have one or more live eyes or sprouts, and to be true to name. In remot case of a variety proving untrue to name a replacement will be made the following spring. Some varieties are slower to sprout than others so give them a chance to sprout. No further obligation than the amount paid is assumed under this guarantee.

## SPECIAL COLLECTIONS

THESE ARE OUR CHOICE. Each one labeled, helps take care of our spring surplus. Use letters to order.

- A. 10 large varieties--mixed FD., ID., SC., STC, and IC.....\$5.00
- B. 10 miniatures.....\$4.00
- C. 10 pompons.....\$2.50
- D. Mixture--5 large, 5 miniatures, 5 pompons, 2 collarettes.....\$5.00

## DISCOUNTS

Discounts either in roots of our selection or in cash to be deducted from the gross amount of the order are allowed as follows:

- Orders of over \$10.00-----15%
- Orders of over \$20.00-----20%
- Orders of over \$30.00-----25%

The discount may be deducted in sending remittance, or will be supplied by us in form of extra roots of our selection, in which case a better value is given than the amount listed.

## TERMS

Make checks and money orders payable to Miller Dahlia Farms. Cash, stamps and currency accepted only at senders risk. Please put return address on envelopes, you sometimes louse up our address. No C. O. D. orders please. Because of increased postal rates we must charge 25¢ postage for orders under \$5.00. No shipments will be made East of the Pacific Coast States before April 15th, except by special delivery at your expense. This is to avoid damage by freezing enroute.
